EDUCATION

UNIVERSITY OF CALIFORNIA, SAN DIEGO: Rady School of Management — San Diego, CA
Master of Science, Business Analytics *(Merit Scholarship Recipient)* — *Jun 2026*
Courses: SQL, ETL, Business Intelligence Systems, Business Analytics, Customer Analytics, Prescriptive Analytics, GenAI for Business

UNIVERSITY OF MUMBAI — Mumbai, India
Postgraduate Diploma (PGD), Data Science and Business Analytics — *May 2025*
Courses: Database Management Systems, Machine Learning, Time Series Analysis, Natural Language Processing, Big Data Architecture

UNIVERSITY OF MUMBAI — Mumbai, India
Bachelor of Commerce, Financial Accounting and Auditing — *Apr 2024*
Courses: Statistical Methods, Quantitative Techniques, Strategic Management, Research Methodology, Financial Systems

EXPERIENCE

UNIVERSITY OF CALIFORNIA, SAN DIEGO – *Graduate Teaching Assistant* — San Diego, CA
Applied analytical rigor and communication to resolve quantitative challenges for graduate and MBA courses — *Sep 2025 – Present*

- Managed grading of assignments and exams via Canvas, ensuring 100% accuracy and timely feedback
- Resolved technical student queries regarding Excel, SQL and Python to drive academic success

KULODAY TECHNOPACK PRIVATE LIMITED – *Business Analyst* — Mumbai, India
Owned CRM/ERP reporting, customer insights, and order-to-service analytics for a packaging manufacturer — *Apr 2024 – Jul 2025*

- Built and maintained SQL pipelines integrating CRM and ERP data, improving reporting efficiency by 60%
- Built scalable KPI dashboards and self-service reporting frameworks for Sales and Operations teams using SQL and Excel, increasing data accessibility and reducing ad hoc requests
- Conducted statistical and regression analysis in Python to identify drivers of operational performance
- Established data validation checks, improving data completeness by 25% and reducing duplicates by 15%
- Translated ambiguous business challenges into structured analytical frameworks and measurable KPIs, partnering with cross-functional stakeholders to deliver data-driven insights
- Performed root cause analysis on performance variances, reducing order cycle time by 12%

KULODAY TECHNOPACK PRIVATE LIMITED – *Business Analyst Intern* — Mumbai, India
Supported CRM data quality, funnel reporting, and customer insights for a packaging manufacturer — *Jul 2023 – Apr 2024*

- Improved CRM data quality and analytical reliability by cleaning and standardizing 1,500+ Salesforce records, improving inventory visibility, reporting accuracy by 25%, and reducing duplicates by 15%
- Developed funnel and throughput tracking dashboards using SQL and Excel to track workflow efficiency and identify operational bottlenecks
- Built automated reporting tools to monitor KPI performance and support leadership decision-making

SELECTED PROJECTS

Weather Impact on Sales (Python, Snowflake, PostgreSQL)
Integrated NOAA weather data with sales transactions and applied statistical models to quantify seasonality effects impacting revenue by up to 12%, built an end-to-end Python-Snowflake ETL pipeline reducing manual data handling by 70%.

Predictive Analysis for Uber Ride Cancellations & Revenue Optimization (Python)
Analyzed 148K+ ride bookings and built regression and XGBoost models to predict cancellations, achieving 87% recall, connected behavioral and operational drivers (wait time, region) to revenue impact and proposed actionable pricing and supply strategies.

Shipping Performance & Supply Chain Insights – DataCo (Tableau)
Developed interactive Tableau dashboards to visualize SLA compliance, delay trends, shipping performance, category drivers Identified structural operational bottlenecks and informed process-improvement recommendations.

LEADERSHIP & ACHIEVEMENTS

- **RDAC – Director of Outreach (2025–26):** Built industry partnerships, delivered 4 events for 150+ members
- **NW Vileparle Welfare Association – Volunteer (2023–24):** Coordinated 15+ volunteers, raised $10K+ for community initiatives

TECHNICAL CAPABILITIES

Programming & Data Tools: SQL (PostgreSQL, MySQL), Python (Pandas, NumPy, Scikit-learn), Advanced Excel (Lookups, PivotTables)
Data Analytics & Modeling: Statistical Modeling & Regression, Data Integration, A/B Testing, Hypothesis Testing, ETL Automation
Customer & Risk Analytics: Churn & Sentiment Analysis, Risk & Pricing Analytics, Market Segmentation, Root Cause Analysis
Data Visualization & Reporting: Tableau, Power BI, Looker, Operational KPI Development, Attribution & Funnel Analysis, Snowflake
Strategy & Business Skills: Data Storytelling, Consumer Behavior, Cross-Functional Collaboration, Stakeholder Communication
